HybridLight
SOLAR FLASHLIGHTS

HL160
160 LUMENS
2400 mAh
LITHIUM-ION BATTERY

12 UP TO HOURS LOW BEAM
7 UP TO HOURS HIGH BEAM

FL1 STANDARD		
160 LUMENS	7h HIGH 12h LOW	180m
2900cd	1m	1m

LENGTH
6"
OUNCES
4.5

160 / 12 hrs of Light on 250 / 18 hrs / 1 Full Charge

Extremely Durable

Waterproof & It Floats

Recharges with any light source & micro USB

Super bright LED

Holds a charge for 7 years

5V/2a
USB OUTPUT FOR CHARGING

HL250
250 LUMENS
4800 mAh
LITHIUM-ION BATTERY

18 UP TO HOURS LOW BEAM
8 UP TO HOURS HIGH BEAM

FL1 STANDARD		
250 LUMENS	8h HIGH 18h LOW	314m
4531cd	1m	1m

LENGTH
8.5"
OUNCES
7

DUAL POWER CHARGING

SUN / ANY LIGHT
MicroUSB PORT for RAPID RE-CHARGING ON ALL HYBRIDLIGHT PRODUCTS.

5V/2a
USB OUTPUT FOR CHARGING

HybridLight
SOLAR FLASHLIGHTS

HL150
150 LUMENS
2200mAh
LITHIUM-ION BATTERY

14 UP TO HOURS LOW BEAM
8 UP TO HOURS HIGH BEAM

FL1 STANDARD		
150 LUMENS	8h HIGH 14h LOW	170m
2700cd	1m	1m

LENGTH
8.5"
OUNCES
6

14 hrs. of Light on 1 Full Charge

Extremely Durable

Waterproof & It Floats

Recharges with any light source & micro USB

Super bright LED

Holds a charge for 7 years

HL80
80 LUMENS
1200mAh
LITHIUM-ION BATTERY

14 UP TO HOURS LOW BEAM
8 UP TO HOURS HIGH BEAM

FL1 STANDARD		
80 LUMENS	8h HIGH 14h LOW	120m
1800cd	1m	1m

LENGTH
7"
OUNCES
4

DUAL POWER CHARGING

SUN / ANY LIGHT
MicroUSB PORT for RAPID RE-CHARGING ON ALL HYBRIDLIGHT PRODUCTS.

HybridLight
EXPANDABLE LANTERN

HLXPL
75 LUMENS
4000mAh
LITHIUM-ION BATTERY

6 UP TO HOURS SOLAR
5 UP TO HOURS BACK-UP

75 LUMENS	11 hours	80m
1200cd	1m	

2" CLOSED FLASHLIGHT
6" OPEN LANTERN

FOLD DOWN METAL HANGAR HOOK INCLUDED

5V/2a
USB OUTPUT FOR CHARGING

HybridLight
CAMPING LANTERN

HLCL
200 LUMENS
1000mAh
LITHIUM-ION BATTERY

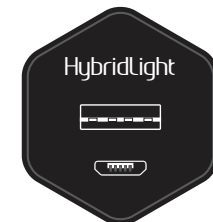

15 UP TO HOURS BATTERY BACK-UP
8 UP TO HOURS SOLAR

200 LUMENS	23 hours	FL1 STANDARD	10m	1m	
------------	----------	--------------	-----	----	--

HEIGHT **7.5"** WEIGHT **1lb 2oz**

- XPL / 11 hrs of Light on CPL / 23 hrs of 1 Full Charge
- Extremely Durable
- Water Resistant
- Recharges with any light source & micro USB
- Super bright LED
- Holds a charge for 7 years

DUAL POWER CHARGING

SUN / ANY LIGHT
MicroUSB PORT for RAPID RE-CHARGING ON ALL HYBRIDLIGHT PRODUCTS.

MicroUSB INPUT FOR CHARGING

HybridLight
HEADLAMP

11 hrs. of Light on 1 Full Charge

Extremely Durable

Water Resistant

Recharges with any light source & micro USB

Super bright LED

Holds a charge for 7 years

▶ ROTATING MAGNETIC BASE
▶ 120° FLEX HEAD
ALLOWS TOTAL ACCESS FOR WHEN YOU NEED LIGHT MOST.

DUAL POWER CHARGING

SUN / ANY LIGHT
MicroUSB PORT for RAPID RE-CHARGING ON ALL HYBRIDLIGHT PRODUCTS.

MAGNETIC BASE SWIVELS 360°

2000mAh
LITHIUM-ION BATTERY

OUTPUT FOR ALL PORTABLE DEVICES AS WELL AS OTHER **HYBRIDLIGHT** PRODUCTS

USB1
DIRECT SOLAR CHARGING AT 5V

USB2
TURBO CHARGING AT 5V/2.5A

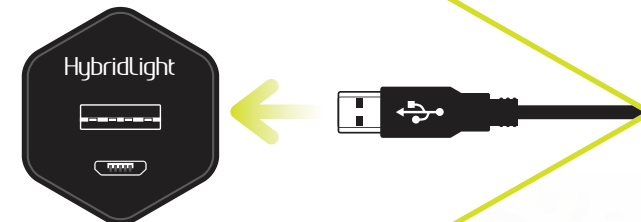

STORES POWER GENERATED DURING THE DAY TO GIVE YOU MORE OPTIONS AFTER DARK.

- ◀ INCLUDES ZIPPERED STORAGE AREA FOR CORDS, MOBILE DEVICES, ETC.
- ◀ MICRO USB FOR RAPID CHARGING
- ◀ COMPACT, FOLDED SIZE: 9" X 6.5"
- ◀ WEIGHT: 11.4 oz.

CONNECT TO OTHER 7W TURBO PANELS FOR **INCREASED POWER**

DUAL POWER CHARGING

SUN / ANY LIGHT
MicroUSB PORT for RAPID RE-CHARGING ON ALL **HYBRIDLIGHT** PRODUCTS.

HybridLight™ is a pioneer of solar powered mobile lighting and charging solutions designed for when you need the power of the sun to shed light on all of your adventures. Our portable flashlights, lanterns, headlamps, and power panels, are the reliable go-to illuminator that you want in every toolbox, glovebox, emergency kit, nightstand, and kitchen drawer.

The HybridLight™ line offers lighting and charging products with minimal expense to earth's resources and huge cost savings while providing dependable light when and where you need it – every time! Perfect for recreational, occupational, and everyday use that encourage emergency preparedness and help protect our environment.

HybridLight™
BRIGHT THINKING

Durable, Environmentally Friendly and Guaranteed for Life.

The HybridLight™ family of innovative lighting solutions use revolutionary energy technology that generates power from natural sunlight or any indoor light source and stores it for future use. When fully charged, HybridLight™ products can hold a charge for years and offer light where and when you need it.

Rechargeable again and again, HybridLight™ products pay for themselves quickly and will soon become your favorite lighting and charging source.

Hybrid Backup Reserve Power Circuitry ensures you always have light. Works as a reserve power supply within our own lithium-ion battery supply.

NO Batteries to EVER Replace.
(80-150, 160-250, Expandable Lantern, 7W Turbo panel)

Back in 2006, Terry Peterson began working on his vision for the portable solar hybrid technology that would be dependable and affordable without concern for dead batteries. This technology would then develop into a series of products that are fully rechargeable and more importantly tailored to charge phones, tablets, or anything with a USB with optimal efficiency. **Now that sounds like bright thinking.**
